Duck Calls

M-5 Duck Call

The world's finest duck call. This is our best seller - very easy to blow, but yet makes great high-balls, beautiful mating calls, and feeding chuckles. This is a single reed call that blows wet or dry and is simple to tune.

M-295 Close in Duck Call

This call is just as versatile as the famous M-5 but smaller and very easy blowing. Wonderful for close in calling and in timber. Single reed call that is tuned perfectly.

TR-78 Double Reed Duck Call

The world's finest double reed duck call. This call can be blown very loud or very soft with the great raspy sound of a double reed.

WD-981 Wood Duck Call

This call produces the scream type call of the Wood Duck and can also be used for the soft feed type chatter.

DR-99 Double Reed Duck Call

The DR-99 is the easiest blowing double reed duck call on the market. This call is light as a feather, and blows wet or dry. This call has exceptional tone & volume and comes down for very soft mating calls. It also produces the feeding call without any effort.

M-250 Pintail / Widgeon Whistle

Carefully constructed of high grade walnut to give lasting beauty and a truly accurate tone. This whistle is great for Pintail, Widgeon, and Teal.

M-80 - Single Reed Acrylic Duck Call

This call really screams. The Single reed M-80 has loads of top end volume and tone, but yet can be blown very soft, making this the perfect call for big water or field hunts.

M-80 Deuce - Double Reed Acrylic Duck Call

From flooded timber to open water, this call will give you the same roof raising top end as an open water call, but with an added reed for that finishing touch. This call gives you the capability to reach out and touch those ducks on the horizon, and the capability to finish em' with subtle and realistic bottom end sound.

M-80 Vortex - Triple Reed Acrylic Duck Call

Words can't describe how incredible this call is! The M-80 Vortex Triple Reed Duck Call is sure to be the only call you will ever need. This call has the most subtle and realistic bottom end our designers have ever heard, yet it has the same top end pitch and volume as an open water call. This highly versatile call gives you the capability to hunt from the smallest of potholes, to flooded timber, or open water.

The M-80 Series Duck Calls are available in Mystic, Camo, Zebrawood, Cocobolo, and Osage Orange. They are complemented with a crystal clear hand tuned acrylic tone channel. *The high-gloss color changing mystic finish looks just like a mallards head.

Goose Calls

M-5 Goose Call

The M-5 Goose Call has been modified to produce the tone and sound of a short reed, and is very simple to master.

SB-98 Speckle Belly Goose Call

Perfectly duplicates the laughing and cackling sounds of the Speckle Belly Goose.

SR-71 Goose Call

The SR-71 Goose Call is a short reed call that is very easy to use and master.

SR-71 Pro Series Goose Call

Same body call as the SR-71, but with "broken in guts" used by our World Class competition team.

Turkey Calls

Frictionless Turkey Call

This call is a must have for any turkey hunter! This single hand **waterproof** call operates with very little effort! Simply depress the bellow to create perfect yelps and cutts, lightly tap the bellow for a beautiful cluck, or rapidly depress the bellow for the most realistic cackle you have ever heard! You run this call like a push button call, but it is frictionless!

Custom Mouth Calls

Choose from our custom lineup:
 Black - 3 reed split V,
 Red - 4 reed snake tongue,
 Brown - 3 reed split V (**Prophylactic**)
 Orange - 2 reed raspy,
 Blue - 3 reed clear,
 Yellow - 3 reed batwing,
 Green - 3 reed cutter.

Varitone Push Button Turkey Call

Simply depress the dowel rod to talk turkey! The Varitone dial control lets you adjust the tone and volume on demand!

Varitone Push Button Turkey Call w/ Gun Adapter

Very simple and easy to use! Simply depress the dowel rod to talk turkey! The Varitone dial control lets you adjust the tone and volume on demand!

Turkey Calls

Custom Competition Glass Call

Made only from the finest walnut, cherry, and hand selected Competition Grade Glass. Then custom matched with our handturned one piece Dymondwood competition striker. You will not find a better sounding call!

Custom Slate Call

Made only from the finest walnut, deep mined Grade "A" Pennsylvania slate, and custom corn cob striker. You will not find a better sounding slate call!

Custom Aluminum Call

Made only from the finest grade walnut, and high intensity aluminum, matched with a custom built corn cob striker. You will not find another call with this kind of frequency.

Camo Glass/Slate Call

Double sided call. Glass on the front side, and slate on the back, set in a custom camo pot. Comes with 2 custom corn cob strikers. Works when wet!

Mallardtone Box Call

This is our standard box call. Made from select Walnut, Poplar, and Cherry, this call has an incredible tone that is hard to beat.

Halfmoon Box Call

This is our halfmoon style box call with custom handle. Available in cedar, poplar, and sycamore, **or** walnut, sycamore and cherry combos like pictured above. These calls sound and look absolutely amazing!

Custom Box Call

This is our custom one piece box call. Made from select Mahogany and Purpleheart, this call will drive gobblers crazy, as well as collectors!

Locator Calls

M-5 Tunable Owl Call

The world's finest owl call. The M-5 Owl Call is very simple and easy to blow just like our duck calls. You can easily custom tune this call by adjusting the reed forward if you choose giving you deeper or higher pitched tones. Great for locating spring gobblers on the roost!

World Champion Crow Call

This crow call is, without a doubt, the finest crow call on the market. Used by both recreational and tournament hunters. This call has won hundreds of local, state, & national crow calling championships, as well as several world championships. Great spring gobbler locator!

Hawk Call

This call perfectly imitates the scream of a hawk, freezing all upland game - keeping them sitting tight. This call is also very effective for locating spring gobblers.

Predator Calls

Coyote Howler

This call is very easy to blow and creates the most perfect bone chilling howls and barks on demand.

Predator Call

This call produces a very loud scream of a distressed rabbit (cottontail). Used for long distances and windy days. Our Pro Staff have called coyotes more than a mile away with this call.

Close Range Predator

This is a distressed rabbit (cottontail) call designed for the close in finishing touches when the predator is close and in search of its prey.

Deer Calls

Deer Call

The Mallardtone Deer Call is very easy to use and blow. Produces all doe / fawn bleats and bawls.

Doe Estrus Bleat Can

Very easy to use, just tilt the can upside down to make perfect estrus bleats everytime. Use during ALL phases of the rut to attract Big Bucks. Available in 2 different sizes.

All-in-one Grunt Call

The All-in-one deer call produces dominant buck grunts, trail grunts, doe bleats, estrus bleats, and fawn bawls simply by sliding the external on the barrel.

Miscellaneous Calls

Squirrel Call

This is a very versatile and effective call. Produces very realistic barks and chatters.

Coon Call

This call produces the sound of a coon fight. By using this call on treed and hiding coon, the coon will often come out and take a look. It can also be used as a distress call, which works well for large predators.

Pheasant Call

Imitates the cackle of the cock pheasant. Can be used for flushing birds and assembly clucks, or for locating morning birds.

Hog Call

Hogs go Hog wild when they hear this Hog call. Be ready, they come running.
